The image shows the interior of a private jet cabin. The cabin is furnished with several rows of plush, light-colored leather seats. The walls are white with a series of oval-shaped windows. The ceiling is also white with recessed lighting. In the foreground, a small table holds a white coffee cup and a magazine. The overall atmosphere is clean, modern, and luxurious.

Darby Flight Club

Darby's **Flight Club** is the network application of Social Innovation. This solution allows the you to direct funding to a specific cause or set of causes by absorbing net profits from your purchase. The strategic use of your purchase and that of like-minded entities, collectively transforms necessary purchases into a funding lens. Your charity of choice is the target of your focused support, and becomes the sole beneficiary of net profits generated by each respective solution. It's that simple.
