CHRIS ARCENEUX
FOUNDER AND CEO OF DARBY FOUNDATION
Professional Golfer and Brand Ambassador, Mercedes-Benz

Growing up, CHRIS ARCENEUX saw many of his peers without opportunities or positive role models in their lives to be successful. This stayed with Chris throughout his childhood and motivated him to make a difference in the lives of young people.

Through Darby Foundation, Chris brings opportunity, purpose and focus to those individuals that would not otherwise be exposed to such life altering experiences. His professional career including community leader, entrepreneur, educator, and professional athlete are the blueprint that shapes the efforts for Darby Foundation.

With strong passion, resiliency and unwavering commitment Chris has always found a way to achieve his goals no matter the obstacle. He credits this drive to his young days when he found golf as a way to channel his energy and talents into a positive pursuit. Chris has demonstrated incredible leadership skills and seeks to share his experience by creating pathways for success.

In addition to his philanthropic efforts, Chris is a Celebrity Ambassador for Mercedes-Benz and other notable brands, Professional Golfer, and Professor at Nassau Community College.

“It is a lifetime pursuit of mine to turn the principles of business success into the principles of human significance.”

-Chris Arceneaux

About DARBY Foundation

The Darby Foundation, established in 2010, has created and supported programs from career days, golf camps, mentorships, internships and activities that motivate young people to DREAM BIG to reach their full potential in life by giving them a way to channel their energies into sports and a healthy lifestyle. The foundation’s goal is to empower children through its various sports and lifestyle initiatives and to inspire the next generation of leaders.
